## Experience

Full Stack Developer | ABC Tech Solutions | 2022 - Present

- Led the development of a responsive website using Next.js and TypeScript, resulting in improved performance and user engagement.
- Designed and implemented a mobile app for scanning products in retail stores, streamlining inventory management processes and enhancing customer experience.
- Developed an API for Dev Folio to facilitate easy integration for recruiters, enabling seamless communication and data exchange.

# Projects

## 1. E-commerce Website with Next.js

- Developed a full-fledged e-commerce platform using Next.js, incorporating TypeScript for enhanced type checking and code maintainability.
- Implemented features such as product listings, user authentication, and checkout functionality.
- Technologies Used: Next.js, TypeScript, Tailwind CSS, MongoDB

## 2. Retail Product Scanner App

- Designed and built a mobile application for scanning products in retail stores, allowing users to view product details and check availability in real-time.
- Integrated with backend APIs to fetch and update product information from the database.
- Technologies Used: React Native, Node.js, Express, MongoDB

## 3. Dev Folio Integration API

- Created an API for Dev Folio to facilitate seamless integration with recruiting platforms, allowing recruiters to access and manage candidate data more efficiently.
- Implemented authentication and authorization mechanisms to ensure data security and privacy.
- Technologies Used: Node.js, Express, MongoDB, JWT

# Certifications

- AWS Certified Developer - Associate
- Google Certified Professional - Cloud Architect
